SALE OF KITCHENWARE.

(Continued from First Page, )

This is the district which was odd out by that disaster, with a loss sixty-nine lives. Men are watching tanks around the refineries north of In the business portion of the city the water has reached a depth of eight feet, and shows no signs of receding. The rain at I o'clock was coming down in torrents. The loss has already reached more than a million dollars, and unless relief soon comes, it will be three times that much. No trains have arrived or departed from the city for twenty-four hours.

PITTSBURG, May II.—The floods have stopped traffic completely on the Pennsylvania Railroad east of Greensture, which is but twenty-eight miles from Pittsburg. The last through train to strive was the Chicago Limited, which reached this city at 10 o'clock last night. Since then no trains have arrived from or departed for the East. The trouble is between Johnstown and Alboona. The tracks are submerged in four feet of water from Conemauch to Bennington, a distance of eighteen miles, and Li00 feet of track, together with the Conemaugh bridge, have been washed away.

Four large crevasses were dug down the face of the dam by a wave which rolled across the lake and over its edge to the low lands beneath. The wave is thought to have been caused by a cloud-burst, and this theory is borne out by the fact that there was but the one, and that water is now running over the spillway. There is no doubt that the dam has been weakened, and there may yet be trouble, although work is now being done to strengthen it. The men and horses who are engaged upon the new reservoir immediately below the present one have been removed to higher ground for cafety.

NEWPORT, Perry County, Pa., May 21.—The Juniata River is twenty-five feet above low-water mark, about five feet lower than when the terrible flood of 1830 occurred. Families on Front street have abandoned their homes, the water flooding the first stories of their houses. Greger & Shreffler's planing and saw mills are under about five feet of water, and about \$2.00 worth of lumber has been swept away. e water is now at a standstill. The will be very heavy.

STORM AND WAVE SWEPT.

Much Damage Done in and Around This Vicinity.

This is a March day in May, and there be no improvement in the weather to-day or to-morrow, according to the all along the Middle Atlantic and New England coasts, and the danger to shipping was increased by fog which covered the coast like a blanket this morning.
Railroads in New Jersey suffered severely from washouts, and on one section of the New Jersey Central along the coast traffic was abandoned. Great dame was done to telegraph wires, and service was crippled to many princi-

the service was crippied to many principal points.

The weather indications, as supplied by Local Forecast Official Dunn to-day, give grounds for apprehension that New York has not seen the worst of the storm. They are as follows:

"For Southeastern New York, Long Island, Connecticut and New Jersey: Cloudy weather and rain; continued high and northeasterly winus, with fog along the coast; stationary temperature."

was soin adollu aroditu aodriin inon morrow.

was soin adollu aredilu aedriin inon morrow.

"The storm centre," said Mr. Dunn, "covers the country over the Ohio and Tennessee Valleys to the Atlantic coast. It has spread out considerably, and although not as well defined as yesterday it still continues with high north-easterly winds along the Middle Atlantic and New England coasts, and the conditions are made more dangerous by the fog which prevails along the coast. The weather is generally clear over the South Atlantic coast.

"The weather is generally clear over the South Atlantic coast.

"The weather are down at Sandy Hock and we have been unable to get the velocity of the wind at that point. It is hlowing thirty-six miles an hour at Block Island, The storm to-day is most severe along the lower New England coast."

The Western Union Telegraph Company suffered greatly from the storm in New Jersey and Pennsylvania, and the Company is more or less crippled in every direction. Along the New Jersey coast, the Wire Chief said this morning, the wires are pretty well wrecked, but the Company is not entirely cut off from the coast.

At the main office of the Postal Telegraph Company it was stated that they were not experiencing any scrious trouble except to Philadelpida and Ruj. The south track of the Southera Div.

falo.

The south track of the Southern Division of the Jersey Central Railroad is washed out for quite a distance between Seabright and Hachland Beach, and sand washed up by the waves which broke over the track in piled ten to fifteen feet high. Normandie station is entirely covered by sand. Between Morgan and South Amboy on the New York and Long Branch Railroad, the saind is piled ten to fifteen feet high on the tracks.

Commuters and other passengers for

gan and South Amboy, on the New York and Long Branch Railroad, the saint is plied ten to fifteen feet high on the tracks.

Ead the letter of Mr. H. N. Parkhurst, a design meaning and other parameters for New York, who come via Sandy Hook, had to come in to-day via literacheport, and all trains over this division were helf an bour late.

In the fog late hast night the hark Ludgats, from Shanghal, fouled the light barge. West Poin just below Liberty Island. The plate on the West Point's barge West Point is the bark to read or write. My eyes pained me very much for these of four the bark sustained no damage.

TREES AND SHANTIES DOWN.

Canaseraga Creck and its tributaries are on a terrible rampage, and the fixed now at its height, is the worst in the valley for years. The destruction of growing and newly planted crops is complete, and the damage the farmers have sustained will run up into hundreds of thousands of dollars. The Bradher to read or write. My eyes pained me very much for these of fundaments and depositing the soil in the crecks in the valley below. The Genesce Flooding Rochester.

The tin roof of the big United States Hotel, at Hockaway, was carried away. The wind got under one corner and The wind got under one corner and the paper. Skylights were

The Forty-Foot Fishing Smack Almost Foundered in Heavy Seas.

The little forty-foot fishing-smack Franklin D. Nelson was badly knocked about by the heavy gale of yesterday, and her crew consiler themselves exceedingly lucky to be lying at the Fulton Market docks this morning.

The Nelson is commanded by Cart, Charles Jansen, a Norwegian. For three days up to Saturday last she was fishing in shore, twenty-five miles north of inc inshore, twenty-five miles north of the sum of the communication bears of t

by water and the communication be tween Manhattan and Brighton beache is cut off. The railroad tracks in this

Central Railroad of New Jersey

resched this city at 10 o'clock iast night.

Since thus no trains have arrived from or departed for the East. The trouble is between Johnstown and Altoena. The tracks are submerged in four feet of water from Conemaugh to Benning ion, a distance of eighteen miles, and 1,500 feet of track, together with the Conemaugh bridge, have been washed away.

It will take two days to make the repairs and in the mean time all Pennsylvania trains will go over the Baltimore.

Breaks in a Reservoir.

Last night there was great alarm when it was reported that the reservoir at Kittanning Point, a few miles west of Altoona, had broken. Fortunately the break was not as bad as at first confided across the lake and over its edge to the low lands beneath. The wave is thought to have been caused by a cloud-burst, and this theory is borne out by the fact that there was but the one, and that water is now running over the spillway. There is no doubt that the dam has been weakened, and there may yet be trouble, although work is now being done to strengthen it. The men and horses who are entagged upon the the gale swept away everything not

EURYBIA ON THE ROCKS.

and, the dwellings there were out off from communication with the rest of the town by the rising water, except by means of boats. The tide rose to the platforms of the bridges that span the Elizabeth River. The furious wind caused havor to shade and fruit trees, telephone and telegraph wires.

Another great tide was on this morning, and threatened to submerge the tracks of the Central Railroad, between here and Newark, and the long bridge between Elizabethport and Bergen Point, on which the main line of the New Jersey Central runs.

Considerable damage was done to trees and crops at Rahway River was over its banks at 11 o'clock, and was still rising. People living in the vicinity of the river were moving their goods to places of safety. orses who
reservoir immedia.
Int one have been remove.
In this cliy the fivers are still rising, at a stage of more than twenty-five set is not feared. This will submerge the low lands and cause a suspension of work in the mills and factories along the banks of the streams, but will do no other damage. Trains on the Baltimore and Ohio. Allegheny Valley and the Western foads are arriving on time. Unless there is more rain the worst in this section is believed to be over. The weather, however, is still cloudy and threatening.

Bears Drive Prices Down, and Resist a Rally.

cessful drive at the market this merning. As usual of late, they selected Sugar as veing your pills and salts. My friends tell me they a hammer with which to beat down think your remedies have saved my life. ther stocks, using the proposed investigation into the alleged bribery of Senators against the shares.

Sugar opened at 25, and in less than fifteen minutes was knocked down to 92 1-4, a decline of fourteen points inside of a week.

Electric 1-2, to 35 1-2; Susquehanna pref.
11-2, to 35; Northern Pacific pref. 5-8, to
15 7-8, and Western Union 3-4, to 81 1-2.

The decline culminated around 10,30
o'clock, when the bears made an attempt to cover, and a rapid advance custled. American Sugar was the leader and sold up to 35 1-2. The preferred rose 7-8, to 89; Louisville 7-8, to 45; Atchinson 3-8, to 10; Chicago Gas, 11-2, to 67 3-8; St. Paul 1-2, to 58 3-4; General Electric 3-4 to 35 1-4; Cordage 1-2, to 20; Lead 3-4, to 37 3-4. Northern Pacific preferred 1-2, to 15 1-2; New England 1-2, to 37 3-8, and Western Union 1-2, to 82.

The tally was of short duration, for the bears made a sharp drive at bank-rupt properties like Northern Pacific and Reading. The former was knocked down 4 points, to 12 1-2, and the latter 1 1-8, to 15. The decline was accelerated by the execution of "stop" orders.

Chicago Gas dropped 2 1-8, to 65 1-4. Rock Island sold down to 65 7-8, Burillanton to 81 1-4. Missouri Pacific to 25, Louisville to 44 1-4 and New York Central to 97 1-2. Although London took about 15,000 shares of various stocks, the effect upon the market was scarcely perceptible.

During the last hour of business there was a sharp change in the temper of speculation, and prices advanced in the entire list. Sugar sold at 36 3-4, against 32 1-4 early in the day. Chicago Gas rose to 57 1-2, an advance of 24 from the lowest.

Northern Pacific preferred to 25, to 67 1-2, an advance of 24 from the lowest.

Northern Pacific preferred to 25, to 67 1-2, an advance of 24 from the lowest.

Fat?

Why Are So Many Women

The Causes of Obesity and the Best Way to Correct It.

(From Indianapolis News.) It is not an unusual thing for a man as he approaches middle life to increase visibly in weight; but it is undoubtedly true that there are more fat women than fat men. There are several reasons for this: In the first place, women as a rule take less exercise than men This is especially true of women who are beginning to grow heavy: exercise

with the result that they get still fatter. And then, too, women are more nervous than sen-and, strange as it may seem, excessive fiest is due largely to disordered nerves; especially the gastric nerves. They do not properly discharge their functions, and instead of converting food into blood and atrength, they turn everything into fat, which not only becomes a great burden but is a distinct danger, pressing upon the vital organs and greatly hampering their proper work.

Dr. Edison's treatment for reducing fat has been

nes uncomfortable and so they refrain from t

wonderfully successful. It is a double treatment-external and internal. Externally it consists of rearing his Obesity Band, which not only relieves one of the uncomfortable sensation of excessive treatment consists of taking Dr. Edison's Obesity Pills and Fruit Sait. The pills and sait may be taken separately, or the two used together-in which case the cure is generally more rapidly effected.

Obesity Fruit Sait is a true laxative, a specific for constipation. It cures numerous diseases re sulting from this trouble. Pleasant to take, re-A few of the many gratifying testimontals that

Dr. Edison's Obesity remedies have elicited are NEW STYLE SPECIAL OBESITY BANDS.
